TANAKA PRECIOUS METAL GROUP Co., Ltd.

Mitomo Semicon Engineering Co., Ltd. Signs Business Transfer Agreement with NSC Co., Ltd.

EEJA Ltd., the main company operating TANAKA's plating business, announced today that its wholly owned subsidiary Mitomo Semicon Engineering Co., Ltd. had signed an agreement for the transfer of the plating equipment business at NSC Co., Ltd. Engineering Division.

Besides the continued development of the plating equipment business at Mitomo Semicon Engineering Co., Ltd., this transfer of business from NSC Co., Ltd. seeks to strengthen the development and manufacturing of plating equipment for semiconductor wafers.

TANAKA will continue to contribute to the development of industries by providing various precious metal products and related equipment, and help achieve a better society.
