

Information related to the recent 2016 Kumamoto earthquakes:

A major earthquake and many aftershocks have occurred around Kumamoto the past week (starting around 21:26 on April 14, 2016).

We extend our deepest condolences to the victims of this earthquake in Kyushu area and appreciate many voices offering support given to Tanaka Denshi Kogyo K.K. Saga plant.

Our building, equipment and human resources, we can report no damage to Tanaka Denshi Kogyo K.K. Saga plant and its operation is normal and fully staffed. Also no concerns on logistics have been reported due to the events. As soon as we see or experience irregular circumstances to our operations due to this tragic event, we will announce on our website.
